Enabling Respondus LockDown Browser in a Course

These instructions are intended for Faculty only.

1. In Blackboard, go to the Control Panel within your Blackboard Course and click on Tool Availability.

2. In the tools list, look for Respondus LockDown Browser. If there isn’t already a check in the first checkbox (Availability), click the box to add one.

3. Scroll down to the bottom of the screen and click Submit.

4. Look back at the Control Panel, under course tools you should now see Respondus Lockdown Browser.
